The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Cedrone 4,759,435.

Cedrone shows an impeller including a hub 32 mounted on a motor shaft, and resilient arms 33 extending from the hub. Although Cedrone does not disclose that this impeller is for feeding paint balls, it includes all features claimed and could be used for this purpose with no structural change.

Claims 24-46 are allowed.

Claims 4-23 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The prior art does not disclose a paintball loader having a housing with a bottom well with an outlet, and a rotatable impeller in the well for moving paintballs through

the outlet, the impeller including a hub mounted on a motor shaft, and resilient arms extending from the hub to accommodate paintballs therebetween.
